

MONTEMAR®

LIVING THROUGH SENSES

Galapagos Packages at Montemar: Discovery, Connection, Balance

YOUR TRIP WITH US IS A COMBINATION OF:

Nature brought to your trip through hiking, kayak, snorkelling, lectures, wildlife encounters (penguins, blue-footed boobies, frigate-birds, land iguanas, marine iguanas, sea lions, sharks, rays, turtles, giant tortoises, tropical fishes, finches, yellow warblers, etc.). Cultural enrichment sharing with your Ecuadorian hosts Roberto and Reyna, owners of Montemar; Ecuadorian and Latin American cuisine tailored to your own taste and dietary requirements whether it may be vegan, paleo, vegetarian, pescatarian, dairy free, grain free, low fructose, and many more. Experiential learning of nature and culture from a hands-on perspective: smell, touch, feel and hear nature guided by local experts.
